

Example1: Write a program to calculate the area and volume of ball.

Example2: Write a program to calculate the number of months and weeks and day from a number of days entered by user.

Example3: Write a program to find the value of Y when:

$$Y=N+4Z-3C$$

Example4: Write a program to multiply two numbers entered by user.

Example5: Write a program to solve a quadratic equation ($ax^2+bx+c=0$).

Example6: Write a program to design a simple calculator.

Example7: Write a program to find the maximum value of n values.

Example8: Write a program to find the summation of following series:

$$1+ 12 + 14 + 18 + 116 + + 12n$$
